Lined Ball Check Valve*

This two piece body designed check valve provides high stability, rigidity and eliminates potential leak path and can be installed either vertically and dependent upon application horizontally as well. Ball material consists of solid PTFE. Liner materials such as FEP, PFA and conductive PFA have outstanding corrosion resistant properties.

The ARV2 can be considered as a full port design which offers excellent flow characteristics.

Low opening pressure is needed to unseat the ball in then vertical position.

*Optional PTFE hollow ball/spring supported/PFA-conductive
